Equity Market Analysis

On the flows front, foreigners remained net sellers with a net outflow of USD 54.8mn, the massive selling was on account FTSE rebalancing related outflow as Pakistan was reclassified from Secondary Emerging to Frontier market status. On the local front, majority of the selling was absorbed by Mutual Funds and Individuals with a net inflow of USD 42mn and USD 22mn, respectively. Following a lackluster performance in the previous two months the benchmark KSE-100 index regained momentum, reaching a new all-time high of 82,247 points during the month of September 24. Market sentiment remained positive from the start, driven by a drop-in inflation and higher than expected interest rate cut of 200bps by SBP. Additionally, the IMF board finally approved the USD7bn EFF program which provide clarity on the external front and boosted investor confidence. Some profit-taking occurred toward the end of the month, causing the index to settle at 81,114 points, up 2,626 points or +3.3% MoM. On the Sectoral Front, Fertilizer and Banks made substantial positive contributions of 2,548 points cumulatively on account of attractive dividend yields amid declining secondary market yields. Moreover, E&P sector also remained in the limelight and contributed 718 points due to surprise 800% bonus announcement by MARI. On the other hand, the power sector contributed a negative 897 points as the government announced plans to renegotiate or terminate contracts with Independent Power Producers (IPPs).

Money Market Analysis

SBP conducted the Treasury bill auction on September 18, 2024. The auction had a total maturity of PKR 113 billion against a target of PKR 475 billion. The Government Debt Management rejected the bids as the target amount for the quarter has already been reached. The government has been flushed with liquidity as it received a bumper dividend of over PKR 2.5 trillion by SBP. The auction for fixed coupon PIB bonds was held on September 17, 2024. The auction had a maturity of PKR 534 billion against a target of PKR 200 billion. SBP accepted bids worth PKR 41.6 billion in 2 Years, PKR 26.4 billion in 3 Years, PKR 26.0 billion in 5 Years and PKR 17.0 billion in 10 years at a cut off rates of 13.98%, 12.90%, 13.40% and 13.14%, respectively. The short-term secondary market yields decreased by an average of 300 basis points (bps) while longer tenor yields declined by 232 bps during the month. The yields eased off as State Bank of Pakistan (SBP) reduced the policy rate by 200bps to 17.5% in the monetary policy held on 12 September 2024. This was higher than the market participant expectation of 100-150bps decline in interest rates. Furthermore, the scrapping of T-Bill auction along with an announcement of buyback of Market Treasury Bills by GOP helped put further downward pressure on secondary market yields.
