Shareholders' Equity	5,044,726	4,417,568

Performance Review:

The Company has delivered outstanding results despite a challenging economic environment, thanks to a strategic portfolio buildup over the years, lower acquisition costs, and significant returns on investments in non-policyholder reserves. Both gross and net premiums have grown by around 13%. Investment income has also surged by 78% during the period, fueled by a strong stock market and earnings from high-interest securities. Consequently, benefits paid and reserves set aside for policyholders have increased by 40% compared to the prior year. As a result, the Company's underwriting surplus has reached 11.14%. Additionally, profit before tax for the nine-month period has grown by 77%, while profit after tax has risen by nearly 64% compared to the same period last year.

Window Takaful Operations:

The gross contribution generated from Window Takaful operations was Rs. 2.662 billion (September 30, 2023: Rs. 2.796 billion). The profit before tax that has been reported for September 2024 is amounting to Rs. 181.00 million which has increased by 16% from the corresponding period i.e. Rs. 155.89 million as reported in September 2023.

Future Outlook:

After the approval of 7 Billion USD loan from IMF macro-economic indicators have begun to show signs of stability, with inflation and the current account deficit on the decline, leading to a gradual reduction in interest rates. However, pressures on disposable income and the public's savings capacity persist, driven by increased taxes in the 2024-25 fiscal budget and rising energy costs.

Our Company has delivered commendable financial results, exceeding profit targets despite the challenging economic conditions. We remain vigilant and prepared to adjust our cost structure if necessary. Looking ahead, we maintain a cautiously optimistic outlook for economic recovery. Our focus will remain on innovating products that meet evolving needs and promoting financial protection through widespread awareness campaigns. Additionally, we anticipate stable returns from investment-linked insurance products.

Acknowledgements:

We would wholeheartedly like to thank our shareholders, valued customers, employees and development staff for their consistent support that has helped Adamjee Life emerge as one of the Pakistan's fastest growing life insurance company. We are also grateful to the Securities & Exchange Commission of Pakistan (SECP) for its continued guidance and assistance.

21. CONTINGENCIES AND COMMITMENTS

21.1 CONTINGENCIES

21.1.1 Sales tax on life insurance premium

Sindh Revenue Board (SRB) vide notification no. SRB 3-4/5/2019 dated May 8, 2019 extended the exemption on life insurance till June 30, 2019. Subsequently, life insurance was made taxable from July 1, 2019 at the rate of 3% and group life insurance at the rate of 13%. With effect from November 1, 2018, the Punjab Revenue Authority (PRA) withdrew its exemption on life and health insurance and made the same subject to Punjab Sales Tax (PST). The Company collectively through the forum of Insurance Association of Pakistan ("IAP") filed a constitutive petition in the Lahore High Court (LHC) and in the High Court of Sindh at Karachi on September 28, 2019 and November 28, 2019 against PRA and SRB respectively on the following main contentions:

- Subtantiating the Company's view that insurance is not a service but in fact, in sum and substance, a contingent contract under which payment is made on the occurance of the event, specified in the term of contract or policy, and is thus a financial arrangement. Superior courts in foreign jurisdictions have held that insurance is not a service;
- A question of constitutionality arose on the levy of provincial sales tax on life insurance, which in their view, was a
 Federal subject, since the Federation has retained a legislative mandate over all laws relating to insurance under
 Entry 29 of the said List, therefore, only the Federation is entitled to levy and any tax in relation to insurance
 business; and
- A vast majority of premium received from a policyholder, during the life of the policy, is in fact channeled to the policyholders' investment account and as such this is critically important in exposing the legal fallacies embodied in the Rules. Thus, the legal advisors had expressed the view that if the entire Gross Written Premium (GWP) was subjected to the provincial sales tax, the this was akin to a direct tax on the policyholders, in the nature of income tax, wealth tax or capital value tax, all of which fall exclusively within the domain of Federal Legislature.

In Sindh, on June 22, 2020, the SRB through Notification No. SRB-3-4/13/2020, has made taxable, life insurance w.e.f. July 1. 2020 at the full rate, and issued a conditional exemption for the financial year 2019-20, from the levy of SST, subject to the person providing or rendering life insurance services commencing e-depositing with SRB, the amount of SST due on such services from the tax period from July 1, 2020 onward. On June 29, 2020 SRB through another notification No.SRB-3-4/18/2020 has amended the responsibility of withholding agent requiring clients to also withheld SST on services of life and health insurance. The Company with other life insurance companies, have filed another

For the nine months period ended September 30, 2024

petition at the Hon'ble SHC. The Hon'ble SHC has directed that no coercive measure will be taken until the next date of hearing. Further, the Hon'ble SHC through its interim order dated December 8, 2020 impleaded that the Federal Government be also added as one of the Respondents.

The life insurance industry has been granted interim relieves by the Honorable High Courts of Sindh and Lahore whereby the provincial tax authorities of Sindh and Punjab have been restrained and no sales tax on services has so far been paid on life and health insurance in either province.

In view of the opinion of the legal advisors, and pending the adjudication of petitions filed, the Company has neither billed its customers, nor recognised the contingent liability for SST, PST & KPST, which, calculated on the basis of risk premium and excluding the investment amount allocated to unit linked policies as per the opinion of legal advisors, aggregated to Rs.1,285.82 million (2023: Rs. 1,052.46 million). In Balochistan province, given that the Company has limited operations in that province, the amount of contingent sales tax liability for BSTS, calculated on the similar basis as SST, PST & KPST, is immaterial. The Company, along with the IAP and other insurance companies, will continue its administrative efforts to convince the provincial revenue authorities about the merit of the case.

21.1.2 Income tax

Additional Commissioner Inland Revenue (ACIR), Range B, Zone VI, Large Taxpayers Office, Karachi issued an order dated December 29, 2023 u/s 122(5A) of the Income Tax Ordinance, 2001 to the Company for tax year 2018. In the aforementioned order, ACIR levied a minimum tax of Rs. 197.361 million under section 113 of the Ordinance @ 1.25% on the gross turnover of the Company which also includes the income generated on policyholders' fund.

The Company, through its tax consultant has filed an appeal on the grounds that owing to the special nature of insurance business, ACIR, while levying the minimum tax on the "gross turnover" has ignored the well-settled principles that used to calculate the income tax liability of life assurance business. Rules 1, 2 and 3 of the Fourth Schedule to the Ordinance overrides the provisions of the Ordinance by virtue of section 99 of the Ordinance. Rule 2 of the Fourth Schedule provides that profit and gains of a life insurance business shall be the current year's surplus appropriated to P&L Account as per advice of the appointed Actuary. Further, as per Rule 3 of the Fourth Schedule, amount paid to, reserved for or expanded on behalf of the policyholders shall be allowed as deduction. It is evident that tax can only be levied on shareholder's surplus appropriated to P&L account whereas policyholder's surplus is exempt from tax.

The gross turnover as calculated by ACIR does not represent the income of the Company and hence levying minimum tax on gross turnover is tantamount to tax on policyholders which is against the intent of the legislature.

The company has reasonable grounds to believe that the likely outcome of the aforesaid appeal will be in its favor and hence no provision has been made in these condensed interim financial statements.

37. FAIR VALUE MEASUREMENT

The table below analyses assets measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3:** Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

12.6 This comprises of surplus of Participant Takaful Fund, which relates exclusively to participants of the Individual Family Takaful Unit Linked Fund and Group Family Takaful Business and is not available for distribution to shareholders. Under the Waqf Deed of Individual Family Takaful Fund read with Rule 21 of Takaful Rules, 2012, the surplus arising in the Participants Sub Fund can only be distributed to the Participants of that Fund based on approval of the Appointed Actuary. The surplus has been classified under insurance liabilities as clarified by SECP.

13. CONTINGENCIES AND COMMITMENTS

- 13.1 Sindh Revenue Board (SRB) vide notification no. SRB 3-4/5/2019 dated May 8, 2019 extended the exemption on life insurance till June 30, 2019. Subsequently, life insurance was made taxable from July 1, 2019 at the rate of 3% and group life insurance at the rate of 13%. With effect from November 1, 2018, the Punjab Revenue Authority (PRA) withdrew its exemption on life and health insurance and made the same subject to Punjab Sales Tax (PST). The Operator collectively through the forum of Insurance Association of Pakistan ("IAP") filed a constitutive petition in the Lahore High Court (LHC) and in the High Court of Sindh at Karachi on September 28, 2019 and November 28, 2019 against PRA and SRB respectively on the following main contentions:
 - Subtantiating the Operator's view that insurance is not a service but in fact, in sum and substance, a contingent contract under which payment is made on the occurance of the event, specified in the term of contract or policy, and is thus a financial arrangement. Superior courts in foreign jurisdictions have held that insurance is not a service;
 - A question of constitutionality arose on the levy of provincial sales tax on life insurance, which in their view, was a Federal subject, since the Federation has retained a legislative mandate over all laws relating to insurance under Entry 29 of the said List, therefore, only the Federation is entitled to levy and any tax in relation to insurance business; and
 - A vast majority of premium received from a policyholder, during the life of the policy, is in fact channeled to the policyholders' investment account and as such this is critically important in exposing the legal fallacies embodied in the Rules. Thus, the legal advisors had expressed the view that if the entire Gross Written Premium (GWP) was subjected to the provincial sales tax, the this was akin to a direct tax on the policyholders, in the nature of income tax, wealth tax or capital value tax, all of which fall exclusively within the domain of Federal Legislature.

In Sindh, on June 22, 2020, the SRB through Notification No. SRB-3-4/13/2020, has made taxable, life insurance w.e.f. July 1. 2020 at the full rate, and issued a conditional exemption for the financial year 2019-20, from the levy of SST, subject to the person providing or rendering life insurance services commencing e-depositing with SRB, the amount of SST due on such services from the tax period from July 1, 2020 onward. On June 29, 2020 SRB through another notification No.SRB-3-4/18/2020 has amended the responsibility of withholding agent requiring clients to also withheld SST on services of life and health insurance. The Operator with other life insurance companies, have filed another petition at the Hon'ble SHC. The Hon'ble SHC has directed that no coercive measure will be taken until the next date of hearing. Further, the Hon'ble SHC through its interim order dated December 8, 2020 impleaded that the Federal Government be also added as one of the Respondents.

The life insurance industry has been granted interim relieves by the Honorable High Courts of Sindh and Lahore whereby the provincial tax authorities of Sindh and Punjab have been restrained and no sales tax on services has so far been paid on life and health insurance in either province.

In view of the opinion of the legal advisors, and pending the adjudication of petitions filed, the Operator has neither billed its customers, nor recognised the contingent liability for SST, PST & KPST, which, calculated on the basis of risk premium and excluding the investment amount allocated to unit linked policies as per the opinion of legal advisors, aggregated to Rs. 210.14 million (2023: Rs. 177.02 million). In Balochistan province, given that the Operator has limited operations in that provice, the amount of contingent sales tax liability for BSTS, calculated on the similar basis as SST, PST & KPST, is immaterial. The Operator, along with the IAP and other insurance companies, will continue its administrative efforts to

24. FAIR VALUE OF FINANCIAL INSTRUMENTS

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Operator measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3:** Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).
