# FUND MANAGERS' REPORT

PERFORMANCE TRACKER

August 2026

# EQUITY MARKET ANALYSIS

The benchmark KSE-100 Index remained largely range-bound during August 2026, gaining 882 points, or 0.5% MoM, to close the month at 176,976 points. Early optimism surrounding easing US-Iran tensions and the potential reopening of the Strait of Hormuz faded as the US-Iran Memorandum of Understanding (MoU) failed to progress, with its 60-day framework expiring on August 17 without an extension. The renewed geopolitical uncertainty, coupled with a rebound in international oil prices, revived concerns over Pakistan's inflation and external account outlook. On the domestic front, rising political uncertainty also weighed on investor sentiment, offsetting support from stronger-than-expected corporate earnings. During August 2026, average daily traded volume declined by 5.5% MoM to 798.8 million shares, while average daily traded value fell marginally by 0.6% MoM to USD 134.1 million, as investors remained cautious amid uncertainty surrounding the geopolitical environment. On the flows front, foreign investors turned net sellers, recording an outflow of USD 20.1 million. Among local investors, Banks and Insurance Companies were also net sellers, with cumulative net selling of USD 44.7 million. This selling pressure was largely absorbed by Individuals and Companies, which collectively recorded net buying of USD 51.6 million. From a sectoral perspective, E&P and Refinery sectors were the largest positive contributors to the KSE 100 Index, collectively adding 1,701 points, while Oil & Gas Marketing Companies contributed a further 294 points. These gains were partially offset by Investment Banks/Investment Companies/Securities Companies and Technology & Communication, which detracted 344 points and 310 points from the index, respectively.

# MONEY MARKET ANALYSIS

Secondary market yields increased across the curve during the month, with short-term yields rising by 6 bps and long-term yields increasing by 26 bps. The upward movement in yields was primarily driven by a rebound in international oil prices following renewed geopolitical tensions in the Middle East. Against this backdrop, market participants expect the scope for monetary easing to remain limited in the near term, unless there is meaningful progress toward a resolution of the Middle East conflict and a subsequent moderation in oil prices. SBP conducted the Treasury bill auction on August 19, 2026, with total maturities of PKR 624 billion against a target of PKR 500 billion. The central bank accepted bids worth PKR 52 billion in the 1-month tenor, PKR 340 billion in the 3-month tenor, PKR 44 billion in the 6-month tenor, and PKR 62 billion in the 12-month tenor at cut-off yields of 11.47%, 11.65%, 11.80%, and 11.99%, respectively. Meanwhile, the fixed-rate PIB auction was held on August 04, 2026, with total maturities of PKR 2 billion against a target of PKR 400 billion. SBP accepted bids worth PKR 124 billion in the 3-year tenor, PKR 179 billion in the 5- year tenor, PKR 158 billion in the 10-year tenor, and PKR 400 billion in the 15-year tenor at cut-off yields of 11.75%, 11.80%, 12.30% and 12.49%, respectively.
