EQUITY MARKET ANALYSIS

The Pakistan Stock Exchange (PSX) extended its recovery in June 2026, with the KSE-100 Index advancing by 6,339 points, or 3.6% MoM, to close at 180,302 points, marking the third straight month of gains. Consequently, the benchmark index concluded FY26 with a robust return of 43.5%, marking the third consecutive year of positive returns. Market sentiment was supported by improving global geopolitical dynamics, particularly the ceasefire between the US and Iran announced in mid-June. This development eased regional geopolitical concerns and led to a notable decline in international oil prices, further strengthening investor sentiment and supporting equity valuations. On the domestic front, sentiment was further reinforced by a better-than-expected FY27 Federal Budget, which included a reduction in Super Tax for selected sectors, enhancing earnings visibility. Additionally, the State Bank of Pakistan's decision to maintain the policy rate provided further confidence in macroeconomic stability, complementing the positive external environment. During June 2026, average daily traded volume increased by 18.0% to 836.4 million shares, while average daily traded value improved by 27.0% to USD 142.0 million, as investors gained greater clarity on the geopolitical environment. On the flows front, foreign investors remained net sellers, recording an outflow of USD 182.3 million, while Insurance and Individuals also posted net selling of USD 56.3 million and USD 25.9 million, respectively. Meanwhile, the selling was largely absorbed by Companies and Mutual Funds, which collectively recorded a net inflow of USD 276.7 million. From a sectoral perspective, the bulk of the market's gains originated from Commercial Banks, Cement, and Investment Companies, which cumulatively contributed 3,328 points to the index.

MONEY MARKET ANALYSIS

Secondary market yields declined across the curve, with short-term yields falling by 49 bps and long term yields decreasing by 69 bps. The decline was primarily driven by easing international oil prices, following a reduction in Middle East tensions that eventually culminated in a ceasefire agreement between the US and Iran. In its monetary policy meeting held on June 15, 2026, the Monetary Policy Committee (MPC) decided to keep the policy rate unchanged at 11.5%. The Committee noted that global oil prices had eased following recent positive geopolitical developments, which supported the decision to maintain the status quo. SBP conducted the Treasury bill auction on June 23, 2026, with total maturities of PKR 1,497 billion against a target of PKR 1,200 billion. The central bank accepted bids worth PKR 160 billion in the 1- month tenor, PKR 246 billion in the 3-month tenor, PKR 193 billion in the 6-month tenor, and PKR 558 billion in the 12-month tenor at cut-off yields of 11.80%, 11.75%, 11.75%, and 11.84%, respectively. Meanwhile, the fixed-rate PIB auction was held on June 17, 2026, against a target of PKR 350 billion. SBP accepted bids worth PKR 5 billion in the 2-year tenor, PKR 170 billion in the 3-year tenor, PKR 350 billion in the 5-year tenor, and PKR 124 billion in the 10-year tenor at cut-off yields of 12.14%, 12.09%, 12.19%, and 12.61%, respectively.
